

Nutbrook Trail Wildlife BioBlitz

Sustrans, the charity which created the National Cycle Network, is running a series of events to try to find out what wildlife lives on local cycle paths around Ilkeston as part of our Greener Greenways project.

We will be hosting a free fun, family friendly day on the Nutbrook Trail near the Straws Bridge Nature Reserve. There will be wildlife events including guided walks and activities, demonstrations and games. Everyone is welcome, from experts to beginners, although children should be accompanied by an adult.

For more information email sarah.bradbury@sustrans.org.uk or visit www.sustrans.org.uk

Date: 11th August 2016

Time: 12—8pm

Venue: Nutbrook Trail

(NCN 67) near Straws Bridge
